BUILD

DEVELOP

YOUR OWN ROBOT

Build it better: our suggestion for assembling pib

We recommend **tools** for each step. These are a suggestion, you can of course also use other tools.

1-5

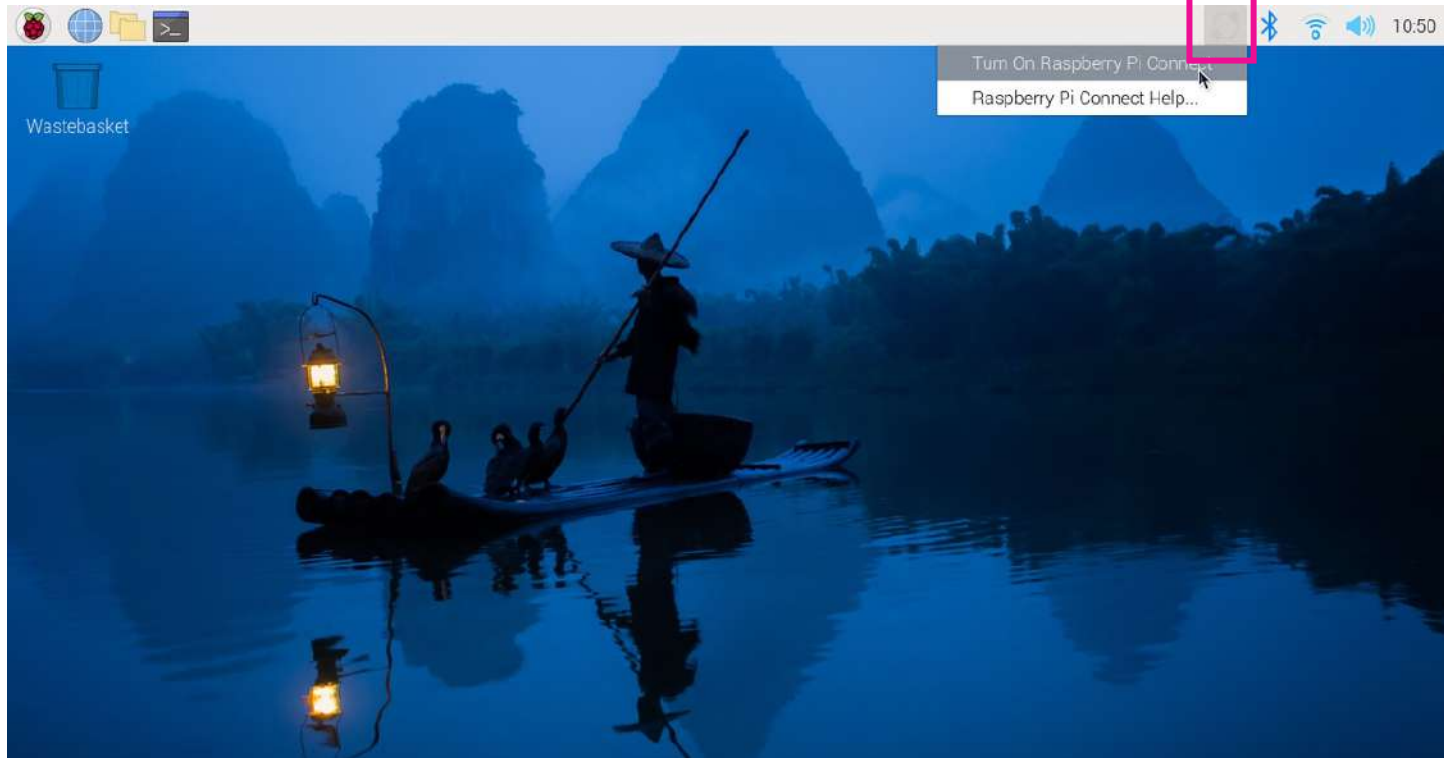

We have categorized each step according to its **difficulty** - from **1-5** (1 being the easiest, 5 the hardest)

We also show you which **non-printable parts** you need for each step

Step 1a

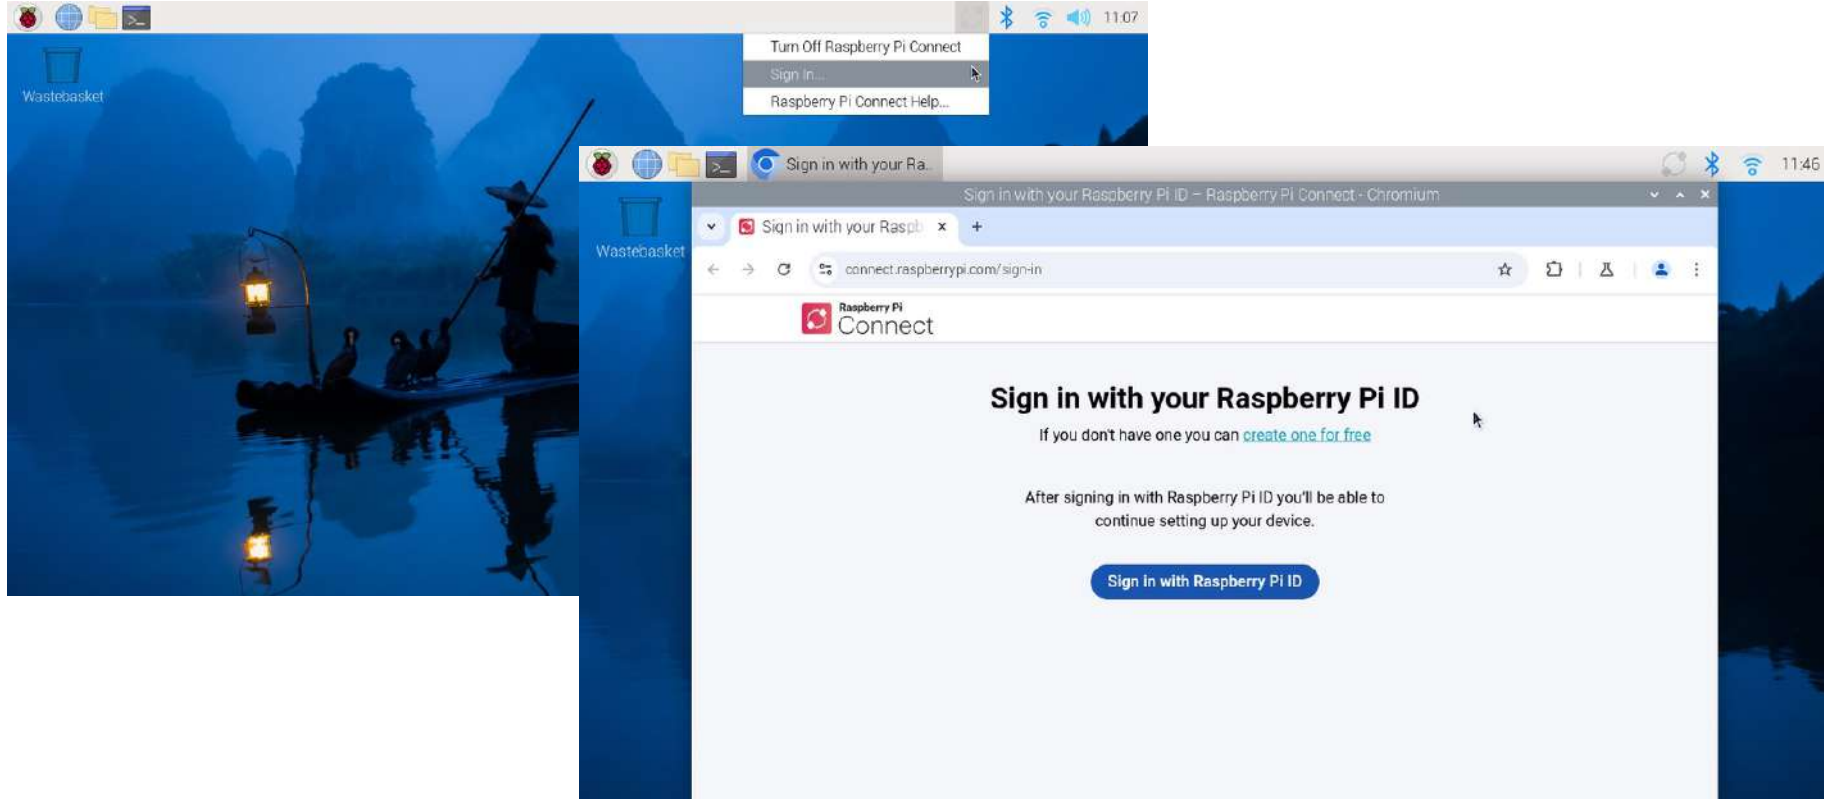

Click on the top right connect icon, then click on turn on Raspberry Pi connect

Step 1b

Click on sign in and then sign in with Raspberry Pi ID

Step 1c

Name your device a recognizable name and click on create token

The screenshot displays the Raspberry Pi Connect web interface. At the top, there is a header with the Raspberry Pi logo and the text 'Raspberry Pi Connect' on the left, and a user profile icon on the right. The main content area has a light blue background and features the heading 'Name your new device' in bold. Below this heading is a white rounded rectangle containing a text input field and a blue button labeled 'Create device and sign in'. At the bottom of the interface, there is a dark grey footer section with the heading 'Need help?' and the text 'Find the answer to your question in our documentation, or seek help on our forums.' Below this text are two buttons: 'Read documentation' and 'Browse forums'.

Step 2

Click on connect via, then screen share

1

The screenshot shows the Raspberry Pi Connect web interface. At the top, there's a header with the Raspberry Pi logo and 'Connect' text. Below that, a navigation bar shows 'Personal' and 'Devices' tabs. A blue 'Add device' button is on the right. The main content area displays a table of devices. One device is highlighted with a red box. A dropdown menu is open next to it, showing 'Connect via' with a dropdown arrow, 'Screen sharing', and 'Remote shell'. The footer contains a 'Need help?' section with a link to documentation or forums.

Device	Client version	Last seen
[Redacted]	2.5.2	Online

Buttons: Screen sharing, Remote shell

Dropdown menu: Connect via, Screen sharing, Remote shell

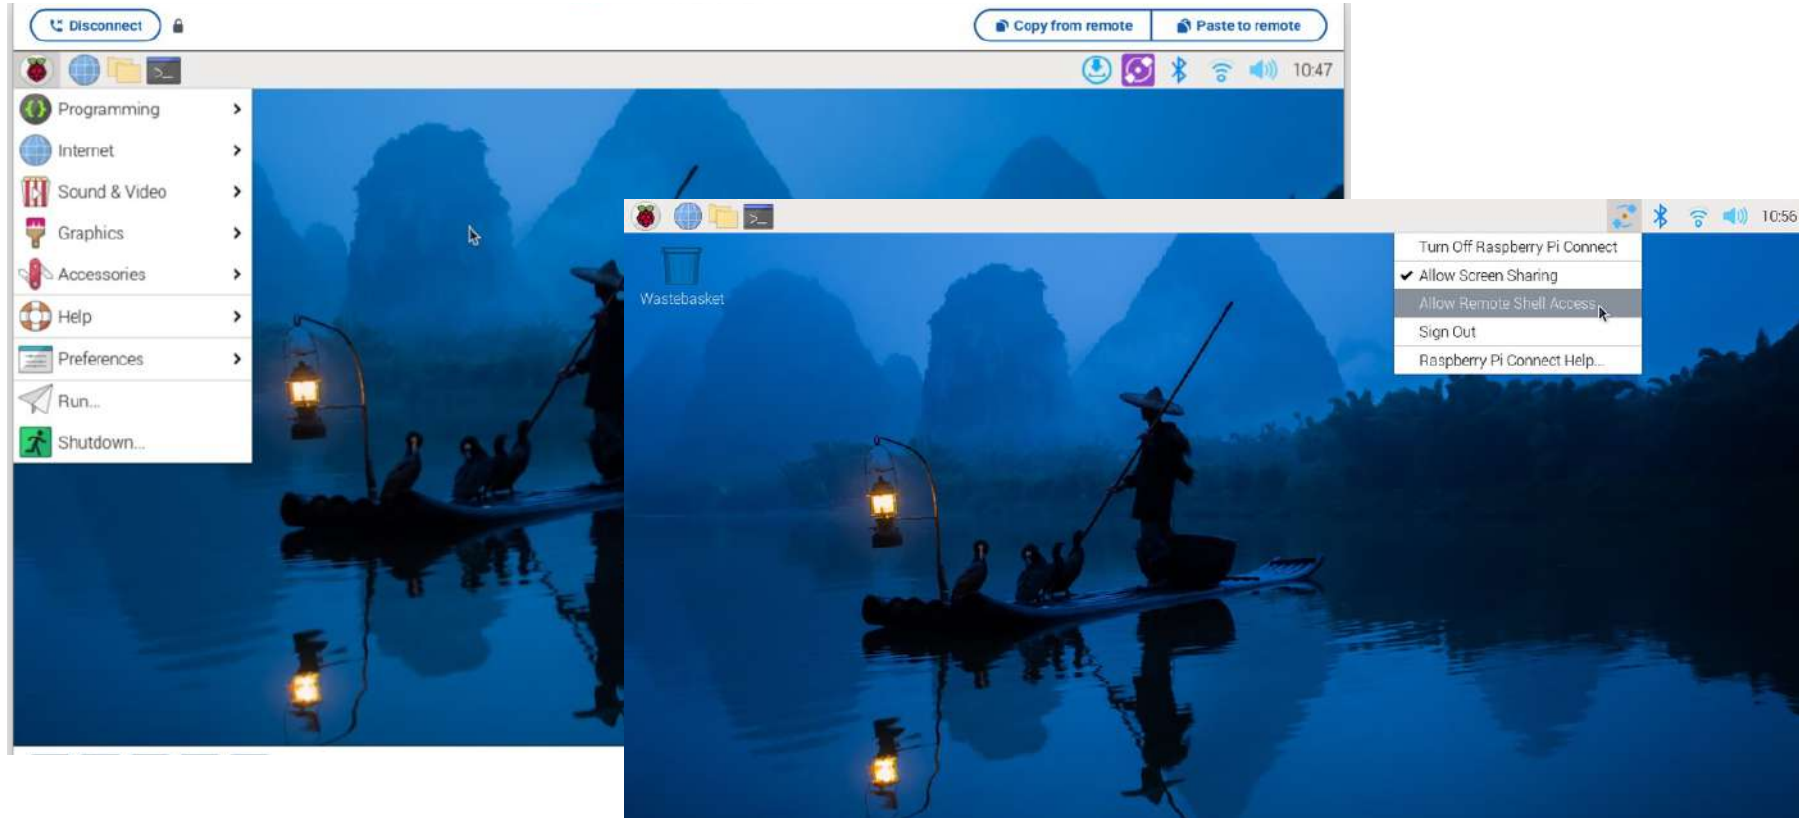

Need help?

Find the answer to your question in our documentation, or seek help on our forums.

Step 3

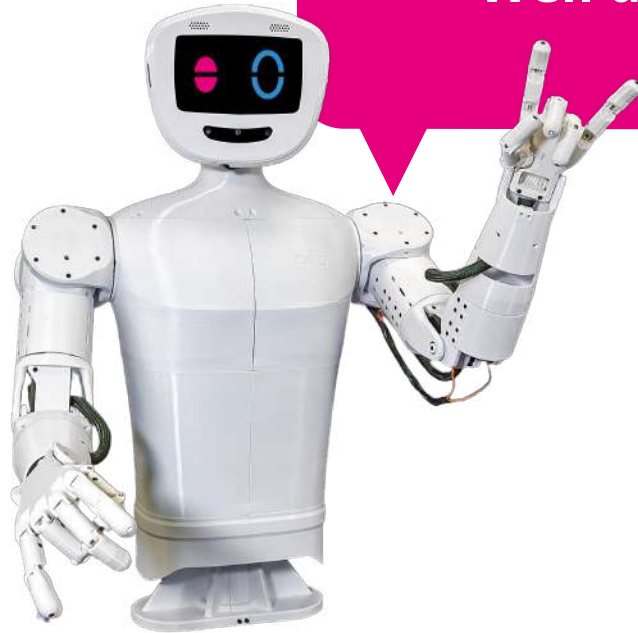

You should now see your RPi screen, do not forget to allow screen sharing

Congratulations

You did a great job, you have initiated pi connect !

Well done!

Do you need support?

Or do you need our pib.Box with all non-printable parts?

Or maybe you have some new ideas and improvements?
